Psychotropic Medication Monitoring

- **Policies and Procedures**
- **Forms**

*Recognition of both the benefits of psychotropic medications and the possible risks inherent in the administration of these medications requires specific evaluative procedures to be followed. This will ensure appropriate and effective use of psychotropic medications. The procedures are specified in the **Psychotropic Medication Monitoring Checklist Regulations (2004 PMUC)**.*

In contrast to the prescriptive and itemized PMUC of the past, the new PMUC is primarily a best practice guide for psychotropic medication monitoring. It is complicated and somewhat confusing to use, making it imperative for psychotropic medication monitoring policies and procedures to be written in a clear and concise manner for your staff.

HCS has studied the new PMUC regulations and has developed comprehensive policies and procedures that delineate responsibilities and expectations. We have also developed forms that your staff will find easy to use. At the request of many organizations, we have decided to make them available for purchase.

To obtain the newly developed Psychotropic Medication Monitoring Policies and Procedures and forms, please complete the order form on the reverse side and send with check or money order to:

Health Counseling Services
615 First Ave NE, Suite 310
Minneapolis, MN 55413
